

No Paws Left Behind

At PART we believe that every animal that can be saved must be given a chance to live and experience a happy and healthy life.

When a homeless or abused pet is rescued, they need financial assistance in receiving veterinary care, food and medicines.

The No Paws Left Behind allows you to sponsor a new rescue's initial veterinary care needs. The cost of the INITIAL vetting, food and medicines is a one-time gift of 6,000 Pesos.

For Dogs this includes:

1. Complete Blood Count (CBC)
2. Complete Liver and Kidney Profile
3. ELISA Ehrlichia
4. ELISA Distemper and Parvo
5. MCF (Heartworm)
6. Frontline
7. Deworm
8. Microchip
9. Food
10. Medicines

For Cats this includes:

1. Complete Blood Count (CBC)
2. Complete Liver and Kidney Profile
3. ELISA FIP
4. ELISA Toxo
5. FIV
6. FeLV
7. Vaccicheck
8. Fipronil
9. Deworm
10. Microchip
11. Food
12. Medicines

Note:

Philippine Animal Rescue Team (PART) or Pendragon Veterinary Clinic does NOT profit from any of the above tests. These tests are standard in order to determine the animal's health. All animals rescued by PART must be thoroughly evaluated by our partner vet prior to being released and transferred to the sanctuary. Some animals may require further evaluation, additional treatments, surgery, and/or continued treatment at the sanctuary.
